Nadim Saliby
## Network/Security Engineer

+961 76378949 nadimjsaliby@outlook.com nadimjsaliby nadimjsaliby

Summary

I have a deep understanding of Windows administration, network engineering, and security technologies, and a proven track record of managing, maintaining, and troubleshooting complex IT systems. Whether it is designing secure networks, responding to security incidents, or protecting sensitive data, I bring a strong technical foundation, excellent communication and interpersonal skills, and a commitment to delivering results that meet the needs of the business. I am eager to continue making a positive impact in the field of cyber security.

Skills

- Windows Server
- Exchange Server
- Azure AD / Office 365
- Hypervisors (VMware/Hyper-V)
- Linux Servers (Redhat/Ubuntu)
- Samba
- Cisco ASA
- Cisco Meraki
- Network Monitoring/PAM Solution
- Networking Technology (TCP/IP, IPSEC,VPN , OSPF, HSRP, EIGRP)
- Python/Powershell Automation
- Windows/Memory Forensics
- Penetration Testing/ Threat Intelligence
- Vulnerability Assessment
- Attack Framework (Metasploit/Canvas…)

Work Experience

Linux Administrator – Carma   March 2023 - Now

- Manage variety of distributed systems, networks & infrastructure in dedicated data center & on the Cloud AWS.
- Full-stack system administration, installation & Administration of OS, applications, & their communication on the network level.
- Development & Testing of new infrastructure requirements.
- Administration of AWS Cloud Infrastructure
- Troubleshooting & incident analysis on all levels.
- Testing & development of backup strategies.
- Monitoring & enhancement of the security for all systems.
- Automation of processes & configuration management via Ansible.

IT Engineer – 4T   March 2022 – March 2023

- Windows Server 2019 Configuration and Troubleshooting.
- Cisco Meraki (Switch/Firewall).
- Microsoft 365 Defender Administration.
- Zabbix Monitoring setup for all on-prem and cloud servers.
- Veeam backup & Replication deployment and management.
- PAM Solution administration with WALLIX (RDP, SSH, MySQL).

IT Specialist – Smart Solution & E-Consultancy   September 2021 – March 2022

- Administer windows server 2012 networks, domains, AD, DNS & DHCP
- Configuration and managing backup and restore procedures.
- Diagnosis and report of servers, networking technologies, and infrastructure issues.
- VLANs, Trunks, SNMP groups, and access lists via Cisco ASA Switches.

System Administrator – Universant   July 2018 – June 2021

- Building, configuring, patching, upgrading, and troubleshooting physical and virtual windows and linux servers.
- Troubleshooting network performance issues and create a disaster recovery plan.
- Investigating and analyzing vulnerabilities and implementing patches accordingly.

Education & Certifications
- ✓ Bachelor's degree in ICT with emphasis on Digital Forensics – AUST Lebanon
- ✓ PWK 200 – Offensive Security
- ✓ RHCSA (red hat certified system admin) -Linux Academy
- ✓ MCSE (Microsoft certified System Engineer) – Microsoft
- ✓ MCSA (Microsoft Certified System Administrator) – Microsoft
- ✓ CCNA (Routing and Switching) – Cisco

Languages
- ✓ Arabic
- ✓ English
- ✓ French
